Sakthi Vignesh

Solutions Engineer (AI) | Technical Discovery, Demos, Integrations and Proofs of Concept

Coimbatore, Tamil Nadu, India | sakthisvsp01@gmail.com | +91 90038 17379
sakthivignesh.com | linkedin.com/in/sakthi-vignesh-6a2447165 | github.com/SakthiVanta

PROFESSIONAL SUMMARY

Customer-facing engineer who can scope a problem, build the proof of concept and explain it to both owners and developers. 4 years of client operations, then 3+ years building production software and AI agents. Writes clear plans, estimates and documentation, and connects AI to the tools customers already use.

CORE SKILLS

Customer-facing: Technical discovery, solution scoping, demos and proofs of concept, written plans and estimates, stakeholder communication, documentation

AI and automation: AI agents, MCP servers, WhatsApp automation (WATI), n8n, Claude, OpenAI SDK, Google Gemini SDK, Vercel AI SDK, prompt engineering

Engineering: TypeScript, JavaScript, Python, SQL, React, Next.js, NestJS, Node.js, PostgreSQL, Redis, Docker, REST APIs

Integrations: Razorpay, BillDesk, AWS S3, Firebase, Google Maps, Exotel, Socket.IO

PROFESSIONAL EXPERIENCE

Full Stack Developer Oct 2024 – Present

Hyperready Technology, Coimbatore, India

- Built the customer website, admin panel (CMS), vendor panel and CRM of BookWedGo, a wedding-venue marketplace with 7 client apps, 3 backends, 900+ API endpoints and 25 integrations (Razorpay, BillDesk, AWS S3, Firebase, Google Maps, WhatsApp, Exotel).
- Turned requirements from telecalling, sales and operations teams into CRM workflows covering lead qualification, call dispositions, escalation, reassignment and hand-off to partner systems.
- Integrated Exotel call recordings, WhatsApp messaging (WATI) and an AI service that generates call-quality and lead-analysis reports, giving managers evidence for telecaller monitoring and follow-ups.
- Building DeepSpot, an AI text-to-SQL analytics product (in development) that turns plain-English business questions into SQL, charts and answers over operational data.

Freelance AI Agent Developer 2025 – Present

Vantaverse (independent practice), Remote, India

- Run discovery with small businesses, map their workflows and write a plan of three prioritised automation opportunities with cost estimates; design agents that work in Tamil and English.
- Delivered websites and tools for clients: Atreus Physio (SEO-first clinic site, delivered in under a week), Ecopiens (export catalogue, container quotation calculator, AI image tooling), Thallu Vandi Kadai (live street-vendor map in Tamil and English) and Sashvika Cabs (bilingual fare estimator).
- Created PagePilot, an MCP-based Chrome extension and connector that lets Claude operate real browser tabs, with approval gates, site restrictions, a pause switch and action logs.
- Built Vanta Embed Agent and the vanta-agent-embed-sdk (NPM) so developers can configure an AI agent with their APIs and tools, then embed it in any web app.

Software Developer Aug 2023 – Sep 2024

KPR Technology, Coimbatore, India

- Shipped HealthyChamps, a React Native mobile app, after being hired as a React developer and learning the stack on the job.
- Built Time Tracker, a company-wide attendance and task-management app with multi-role login (React, NestJS).

Production Editor (earlier QC Analyst) 2019 – 2023

TNQ Technologies, Coimbatore, India

- Promoted from QC to Production Editor after an internal assessment; managed client communication and delivery schedules for research-article typesetting and publishing.
- Coordinated editors and international clients through Freshdesk and email against deadlines, building the client-communication and delivery habits now applied to software projects.

EDUCATION

B.Sc. Physics, Karpagam Academy of Higher Education (KAHE), Coimbatore 2016 – 2019
Full-Stack Web Development Program, NSchool Academy, Coimbatore 2023

LANGUAGES

English (professional), Tamil (native)
